More than 100 participating stores - which include the David Sands stores in Fife, Botterills in Lanarkshire and Glasgow, Aberdeen-based Abernethy Foods, and Dundee-based Morning, Noon & Night - will receive a handling charge from m-box.

Eddie Thompson, founder of Morning, Noon & Night and chairman of the Scottish Retail Consortium, said: "As with our other in-store retailing innovations - such as bank automated tellers and supply of utility payment cards - our link up with m-box is a social service for the rural and outlying areas. Full Text (356 words)*Copyright Scottish Media Newspapers, Ltd. Aug 22, 2000*

SCOTLAND'S independent grocery chains are going hi-tech next month by participating in a new UK-wide "e-mail order" initiative.

The scheme relies on the "open all hours" availability of local convenience stores to act as collection points for a range of non-food, household goods purchased via the Internet.

For instance, this could involve the online purchase by a young person who does not have access to a car, or by a busy parent, of branded football boots and other sports wear - from the kind of stores physically located only in Scotland's cities - with local delivery in Fort Augustus or Drumnadrochit.

The m-box system asks them how they want to take delivery, at which point their most convenient grocery store is chosen.

More than 100 participating stores - which include the David Sands stores in Fife, Botterills in Lanarkshire and

Glasgow, Aberdeen- based Aberneth Foods, and Dundee-based Morning, Noon & Night - will receive a handling charge from m-box.

But the bigger commercial proposition is to win new business as consumers come to their stores to collect their goods, and, it is hoped, make further food and discretionary purchases.

Eddie Thompson, founder of Morning, Noon & Night and chairman of the Scottish Retail Consortium, said: "As with our other in-store retailing innovations - such as bank automated tellers and supply of utility payment cards - our link up with m-box is a social service for the rural and outlying areas. But we do hope to generate new business by bringing more people into our shops.

"Our commercial strategy has always been to take our stores 'back into the community' and this new partnership offers customers access to some of the biggest brands in the UK marketplace."

The scheme follows Tesco.com, the world's largest Internet grocery service with #200m worth of business - into the online retail arena.

Andrew Marsh, retail analyst at Charterhouse Securities, said: "Tesco has shown the way in online retailing in the UK. It is sensible to use the assets - the flexibility and convenience - which these independent grocery stores can offer in tandem with new multi- channel routes to market."
